Charter Skater Contract

Definition:
A charter skater is somebody who has been recognized by one of the travel teams as having potential and may be asked to fill in spots on rosters in games and in practices.

Purpose:
Skaters are chartered in hopes to help develop their skating skills at a faster rate. The hope is to get the skater used to the inner workings of the team and make them familiar to the culture of the team. Creating more opportunity to skate with the team will help prepare them to play in games if need be and make future drafting more likely.

Expectations:
These skaters are expected to meet the same attendance requirements as regular TT players of 70%.
Charter skaters are expected to prioritize their regular team first when it comes to games and meetings. If they are not otherwise obligated with their original team they are expected to make themselves available to their charter team for various support duties/roles.

If a skater is interested in being chartered to a TT they should reach out to the captains of that team to get specific feedback on what to work on.
